TIME: Monday Marth 24th 2014 at 7:00pm

PRESIDENT'S MESSAGE:

We had a good start for the New Year with last month's meeting. Our presenter was Dale Sutton, who just returned from the NAWCC Mid-Winter Meeting in Florida. Dale unveiled a new ultrasonic watch cleaning machine, which is similar to the Mark V. His unit has some improvements over the older model. He also demonstrated a new timing software, that also shows amplitude, which is available for a reasonable price.

For our March meeting I am pleased to introduce Nicholas Manousos, an Engineer, who will give a presentation in the uses of 3D Printers for Horological application. This is a meeting you should not miss.

Our survey showed only 20 people signed up for the 75th Anniversary party. Hardly enough for making a reservation. If you have any interest in celebrating this momentous milestone, please let us know.

We will have free tables for buy, sell, and trade, as well as the 50/50 drawing. We are also now collecting your spent watch batteries.

**Hans J. Weber
Treasurer**
