**TIME:** Monday May 19th 2014 at 5:00pm – An earlier start time for the class – regular meeting 7pm.

### PRESIDENT'S MESSAGE:

This meeting will be our first Seminar/Bench Course. Our member Richard Cuny will be the instructor to guide us through the disassembly and oiling of the popular Eta Automatic Caliber 2829. He will provide a movement for each participant. At present we have 7 persons signed up. The Bench Course will start at 5PM.

Tools to bring are: a raised work platform, a light, an extension cord, tweezers (1pr brass), screwdrivers, a movement holder, hand remover (press or lever), oilers, Rodico, and a covered parts tray. Any questions call Hans Weber at 973-423-1654.

The class will stretch past the normal meeting start time, but those who are not part of the class should still plan to attend at the normal meeting time of 7:00 and we will begin as soon as possible.

For our April 28<sup>th</sup> meeting the L&R Company presented an overview of their 80+ year history. We saw drawings of their various cleaning machines and heard of the latest development in cleaning products by their chemist Tim Ferone. Also thank you for the refreshments.

The plans to celebrate our 75<sup>th</sup> Anniversary will be finalized by our next meeting.
